- Tape
- Zip-ties

ATTENTION: With the key out of the ignition, disconnect the negative battery terminal before installing this product. Ensure that all installation connections are secure before cycling the ignition to test this product. NOTE: Refer to the instructions included with the aftermarket radio.

CONNECTIONS

12-pin pre-wired AX-FDSYNC-SWC harness:

This harness is a plug and play component that **MUST** be used with the **AXSWC interface** in order to retain steering wheel audio controls.

Note: Disregard the harness that comes with the AXSWC kit.

1. Replace the factory interface with the **AXSWC interface**, then plug **AX-FDSYNC-SWC harness** into the **AXSWC interface**.
2. Connect the **Black** wire to chassis ground.
3. Connect the **Red** wire to accessory power.
Important: Cut the **Black/Green** and **Green/Orange** wires and tie them off. For the Ford Fiesta, cut the **Black/Green** wire only.
4. With all connections complete, connect the **AX-FDSYNC-SWC harness** to the wiring harness disconnected from the factory display screen.

To retain the factory backup camera:

Connect the **Yellow** RCA jack to the backup camera input of the aftermarket radio.

AX-FDSYNC-SWC
